

Associação Macaense de Apoio aos Cegos (AMAC)

They provide Braille classes for the community, computer classes for their students and classes teaching the students ways to be more independent. They also provide glasses to people and provide money to help with people's for eye surgery.

In order to raise money, they have a Bazaar, they collect aluminum cans for recycling and they provide a copying service. They are currently trying to start a laboratory, which will make natural products used for homeopathic therapy, to be sold to the public.
